Chinese Population Settlement 1939
Note for Record Census File

Major Bourne, Commissioner of Police, asked whether we had any figures covering the present Chinese population of the Settlement.

Informed him in the negative but told him that I understood that the French had recently taken a census and that we could obtain a good idea of the present situation in our area by applying the same co-efficient of increase as applicable in the French Concession as regards West Hongkew and South of the Creek, and by taking the Japanese census figures for Hongkew and Eastern District.

I found subsequently on enquiry that the French efforts to take a census did not succeed, and that they therefore made an investigation of the housing situation and arrived at the conclusion that a fair estimate of the Chinese population would be double the 1935 figures.

If therefore we double the 1935 figures for South of the Creek and West Hongkew and take the Japanese figures for Hongkew and Eastern District we should obtain figures which offer the nearest approximation possible in existing circumstances.

Gave this information to Major Bourne and suggested he act in the manner indicated to arrive at the information he requires.

Sir,

Could you furnish up-to-date statistics of the Foreign Population in the International Settlement and the French Concession excluding Japanese.

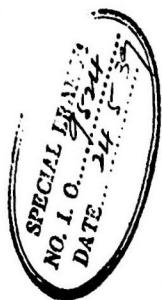

Further, is it possible to verify from the French Authorities the number of Japanese residents in the French Concession. The Japanese Authorities estimate it around 200.

This formation is sought by Mr. Akagi.

THE POPULATION OF THE FRENCH CONCESSION

Taking the census of 1936 as a basis, the population of the French Concession has increased from 478,400 (of whom 23,400 were foreigners) to 1,300,000 (of whom 28,000 are foreigners).

These figures are only approximative in view of the density of population in certain districts and the difficulties of taking a census. They are probably below the actual figures, so much so that one may say that the population has trebled.

The following figures are taken from a recent census :-

**Local Population
Rapidly Nearing
5,000,000 Mark**

Shanghai's total population is rapidly nearing the 5,000,000 mark, according to investigations carried out by the authorities in the foreign concessions.

The tendency, it is reported, still shows an increase and it is expected that before long the local population will exceed 5,000,000. This is due to the fact that refugees are continuing to come to Shanghai and, in addition, many of those who formerly returned to their native villages have come back again owing to their inability to find means of livelihood in the interior, it is said.

Meanwhile, commercial life in Shanghai is continuing to experience a prosperity never equalled before. This is especially true of the restaurant, hotel, provision and other similar trades. It may be said, however, that this prosperity born of the war is confined almost solely to within this city, since business relations with the interior have in the main been brought to a standstill.

Shanghai Population Rapidly Increasing

Reports to the effect that there are only 1,170,000 people living in the International Settlement of Shanghai are incorrect. It is reported that there are 2,500,000 people residing in the Settlement at the present time, which is twice the total population of the area before the outbreak of the Sino-Japanese hostilities.

The population of the Shanghai French Concession has increased to 1,250,000, according to statistics released by the French Municipal Police. Of the total 1,200,000 are Chinese and 50,000 are foreigners. The total number of police force is 3000 in the concession.

In 1864 only a few score of people lived in the French Concession.

According to a Chinese report the number of Japanese residents in Shanghai has increased to 32,000 and according to the present rate of increase, the total number of Japanese residents in Shanghai

will exceed 40,000 before the end of this year.

In 1870 only seven Japanese nationals lived in Shanghai. In 1885 it increased to 500 persons and after the Sino-Japanese war in 1894 the total number of Japanese residents in Shanghai was 738. After the Russo-Japanese War in 1904, 2157 Japanese lived in Shanghai.

Before the outbreak of the World War in 1914 only 9200 Japanese lived in this port city but after the war in 1918 over 15,000 Japanese established their homes in this city. After the Shanghai undeclared war in 1932 there were 28,000 Japanese in Shanghai and now it increased to 32,000.

Most of these Japanese are engaged in retail business such as the selling of piece goods, matches, soap, sugar, and miscellaneous goods. It is reported that more Japanese are coming here to engage in transportation work as well as chemical industries.

Russian Population

To the Editor:

In today's issue I notice you refer to the Russian population of Shanghai as 25,000. This is the figure quoted by the many who solicit advertising for Russian newspapers and magazines and is generally accepted; but is so exaggerated as to be absurd. The French and International municipalities compile census figures at regular intervals and according to the latest reports of these two municipalities the total Russian population in these two areas is 14,845. No one has ever questioned the accuracy of the census figures as they affect other nationalities and there is no reason to believe that the figures regarding the Russian population are not accurate. A few Russians may live in Chinese areas but they cannot be very numerous and the total Russian population cannot be much in excess of 15,000.

It appears that the figure of 25,000 represents the total number of Russian who have been registered here from the time registration was started almost twenty years ago. Every Russian who came to China has been registered, also all Russian births. But there has been no machinery for taking off the list those who died or left.

Yours faithfully

The Star Daily News published the following article on Aug. 3 :-

POLICE ACT AGAINST ROADSIDE STALLS SELLING COLD DRINKS

With a view to checking the spread of infectious diseases, the Police authorities of the International Settlement have adopted rigorous measures to suppress the roadside stalls selling cold drinks, etc. Sellers of a kind of cold drink called "Sai-Mei-Dong" (酸梅汤), who could have been found on nearly every street during the past few years, have now altogether disappeared and have been replaced with stalls selling a kind of beverage known as "Orange Squash". This drink contains some poisonous dye which gives it a colour like that of genuine orange squash and is therefore unfit for human consumption. The Police are now also suppressing roadside stalls selling water melon as a precaution against infectious diseases. Offenders are fined \$5 and are also liable to imprisonment.

The Wen Hwa Pao Dai (文化报道) published the following article on August 1 :-

INTERNATIONAL RED DAY

Since 1929, August 1 has been known as International Red Day, a date for the toiling masses throughout the world to hold processions and demonstrations, to shout anti-imperialist and anti-war slogans in support of the movement for peace.

Several years have elapsed since 1929, yet the imperialists and politicians have not only paid no notice to the clamour of the people, but are planning to repartition the world and to prepare a world war and a new massacre.

China will be the principal sufferer in the second Great War. Therefore, Chinese youths should unite and oppose a second world war and struggle determinedly for their freedom.

THE CAMPAIGN AGAINST THE REDS

San Chuan (三泉), Shiao Nyi (孝義), Tai Kiu (桃九) and other important places in Shansi Province have been recovered from the reds. The bandits along Chung Yang (中陽) and Nan Chuan (暖泉) have also been completely wiped out. Han Zung (漢成), Tsang Hwa Fu (張華輔) and Chun Tsih Zung (蔡積成) who went to Taiyuan on instructions of General Chiang Kai Shek, visited Marshal Yen Hsi San on the morning of March 5.

Central China Daily News and other local newspapers:

THE PROBLEM OF FACTORY INSPECTION

The Shanghai City Government is negotiating over the question of the inspection of factories in the Foreign Settlements. Zung Hai Foong (程海芳), Chief of the China Branch of the International Labour Bureau, is assisting in the negotiations.

It is learned that certain satisfactory results have been obtained in the negotiations and the two parties have agreed to a formula to be drawn up. There are only two points over which the views of the two parties are in disagreement. It is likely that the question will be settled in the near future.

Made By..... and..... Forwarded by D.I. Ross

With reference to the letter of November 29, 1935, from O. P. Brennscheidt, premises No. 39 Columbia Road are situated at the end of a terrace on the east side of the above road about 150 yards south of the junction of Great Western and Columbia Roads. In all there are five houses, the end of the block being fenced off; consequently the Chinese authorities have no access to the property except by crossing the Municipal Road. The occupants pay Municipal rates; light, water and telephone being supplied by public utility companies in the Settlement. The houses bear both Settlement and Chinese number plates.

The property is owned by Sung Sing Daung (沈新堂), No. 67 Rt. Paul Legendre near Avenue Haig, and the agents for the estate are Spence, Robinson and Partners, 27 Peking Road.

Enquiries at the S.M.C. Revenue Department elicits the information that Mr. Brennscheidt has been paying, since March 1, 1935, to the Municipal Council \$64.80 in rates quarterly.

The writer of the letter, upon being interviewed by D.I. Ross, stated that he had arrived in Shanghai from Manchukuo where he had been working for ten years, about one year ago. He is in possession of a 6.35 M.M. Lignose (German) pistol, which he purchased in Germany prior to coming to the Far East. He does not carry the weapon and claims that he only keeps it because of the feeling of security it gives. It was pointed out to him that in order to avoid any unpleasantness with the authorities in the event of his being found with an unlicensed pistol, he

FOREIGN RESIDENTS OF SHANGHAI

Census Figures Reveal Composition By Nationality

The growth of the foreign population of the International Settlement from 1,666 in 1870 to 38,915 in 1935 is one of the very interesting facts revealed in the table showing nationalities published in connection with the Census taken a few weeks ago.

The Japanese have increased from 7 to 20,242 in the 65-year period covered, the British from 894 to 6,595, Russians from 3 to 3,017, Americans from 255 to 2,017 and Germans from 138 to 1,113.

Perhaps the most interesting nationality figures in the table are those of the Spanish community. Starting off with 46 in 1870, numbers rose to 232 in 1885, dropped down to 111 in 1900, rose to 186 in 1920, and is down to 144 in 1935.

Chinese Population

The origin by provinces of the Chinese population of the Settlement is shown in the following table:

"The matter concerns the livelihood of these coolies and your Police Station is requested to consider the difficult situation nowadays and to release the detained trolley forthwith. We also request you to grant permission for carts to be parked as usual on the vacant ground in front of the Chung Nan Hotel, so that no untoward incidents may happen due to oppressor".

It is learned that, upon receipt of the above letter, the Louza Police Station immediately released the detained trolley and the parking in front of the Chung Nan Hotel is to be allowed as usual.

20TH ANNIVERSARY OF THE MUTINY OF THE "CHAO HO" WARSHIP. 肇和

To-day is the 20th anniversary of the mutiny of the "Chao Ho" warship against the Manchu regime. The local District Kuomintang Headquarters have published notices in various local newspapers intimating that a meeting of representatives of various district organs, public bodies, the Tangpu, and schools will be held at the auditorium of the Tangpu Headquarters. Mr. Wang Heng Yung (汪榮寶) will be nominated as Chairman.

In order to prevent the activities of radical elements, the Peace Preservation Corps, the Bureau of Public Safety and the Police authorities of the two Settlements will adopt strict precautionary measures.

Various public circles will hoist flags to observe the commemoration.

Shanghai Party Voice (上海党声), dated Nov. 30.

CENSUS OF POPULATION IN THE INTERNATIONAL SETTLEMENT OF SHANGHAI.

The S.M.C. has made a preliminary report on the result of census of the population in the International Settlement of Shanghai. The population totals 1,159,775 persons of whom 1,120,860 are Chinese and 38,915 are of other nationalities. Now that the ratio of the number of foreigners and Chinese is 3 to 100, we can see that the prosperity of the International Settlement relies on the efforts of the Chinese.

It is reasonable for us to enjoy our rights after we have performed our duties. However, the toll system, introduced by the Shanghai Telephone Company, will be enforced on a fixed date, despite the protest lodged against by the various Chinese public bodies. From this fact, we can see that the Settlement Authorities have not yet been able to pay much attention to the interests of the Chinese.

It seems to us that further efforts must be made to deal with the question of the rights of Chinese now that the number of Chinese in the International Settlement of Shanghai is on the increase yearly.

NICHI-NICHIJAPANESE CONSULS-GENERAL TO HOLD MEETING AT TIENTSIN.

A telegram from Tientsin dated October 16 states that the Tokyo Foreign Office has decided to call a general meeting of all Japanese Consuls-General in China at Tientsin on October 25 to make arrangements for dealing with the North China affair. The following officials are expected to attend the meeting:- Mr. Wakasugi, Councillor at Peking, Mr. Kawagoe, Consul-General at Tientsin, Mr. Nishida, Consul-General at Tsinan, Mr. Yamajiri, Acting Consul-General at Tsingtao, Mr. Suma, Consul-General at Nanking, Mr. Morishima, Chief of the First Section of the Asiatic Bureau of the Tokyo Foreign Office, Mr. Horiuchi, First Secretary of the Japanese Embassy, and a number of councillors attached to the Japanese Embassy to Manchukuo.

ANTI-JAPANESE ACTIVITIES IN FUKIEN.

A Dentsu telegram from Tokyo reports that on October 16 Mr. Yamada, Japanese Consul at Amoy, informed the Foreign Office to the effect that he had requested the Fukien Provincial authorities to suppress the anti-Japanese activities of the Chinese National Salvation Society which had distributed a quantity of anti-Japanese handbills in Fukien with a view to obstructing Chinese going to Formosa to attend an exhibition which is now being opened to celebrate the 40th anniversary of Japanese administration in that island.

MAINICHIANTI-JAPANESE TELEGRAM ISSUED BY PROFESSORS OF CHINESE GOVERNMENT UNIVERSITY..

It is reported that on October 7 the professors of the Chungshan Government University in Canton sent an anti-Japanese telegram to the Nanking Government suggesting that China should not surrender to Japan in political, economic, educational and cultural affairs because Japan is now attempting to invade South-East China, having already occupied Manchuria and controlled Hopci, Charhar, Suiyuen and Shensi. Sir F. Leith-Ross, British economic expert, has visited Japan first before coming to China. This would suggest that China is like a protectorate of Japan. China will come to ruin unless the Nanking Government changes its policy towards Japan.

NIPPONPOPULATION OF JAPANESE IN SHANGHAI.

The census of Japanese population taken recently by the local Japanese authorities reveals that there are 27,299 Japanese subjects, including 1,692 Koreans and 606 Formosans, in Shanghai.

Min Pao (official organ of the Kuomintang) :

LEE YU SENG'S STATEMENT ON HIS VISIT TO INDIA

In the winter of 1933, Lee Yu Seng (李友生), a teacher of the Lih Dah Institute (立達學院) in Shanghai, proceeded to the International University in India to give lectures at the request of the faculty of that university. He remained there for one year and returned here a short time ago since when he has made the following statement regarding the conditions in India :-

India has a population of 350,000,000 and is the home of Buddhism. Buddhism was spread to China after the East Han Dynasty. At present there are neither monks nor nuns in India and even in the native place of Buddha, no Buddhist activities can be found. It is sometimes stated that the ruin of India may have connection with the fall of Buddhism. In reality this is not right. The ruin of India is due to internal complications and to the divergence of the ideas of the people.

The castes of the Indian people are most complicated. For instance cloth washers have castes among themselves and barbers have their own castes, in all amounting to several thousand castes in the whole country.

The commercial enterprises in India are wholly in the hands of British who also have important influences in politics and economics. There are over 120 small states in India and each state has its own chieftain. The British people have been setting these chieftains one against the other to prevent the country from becoming united. India was not actually ruined by Britain but was given to that country by the Indians themselves who craved individual power.

In 1920, Gandhi, the leader of the Indian revolution, suddenly introduced the policy of passive resistance which has been carried out for more than ten years. Now the British are treating the Indians brutally. Officers-in-Charge of all official organs in India are British and by this means the activities of Indian revolutionaries are being watched by the British, whilst Gandhi's power has been curtailed. Gandhi has resigned from the post of Chairman of the All Indian Congress and has purposely organized a social movement in order to abolish the caste system. Although the present circumstances of China are very bad, her people are still at liberty to do anything they wish. The fact of the ruin of India can be used as an urge for China to strengthen and to save herself, while on the other hand China should make internal reforms in order to save the nation from decendency.

REPORT

Date May 8, 1931

Subject (in full) Proposed Census of Chinese and Foreign Residents

Made by and

Forwarded by C.D.I. Robertson

With reference to the attached Extract from the Morning Translations of May 2 re: Chinese Census and the Japanese Amalgamated Association of Street Unions, Col. Chen Hsi-tseng, Chief of the Public Safety Bureau, states that commencing from July, 1931 the Public Safety Bureau will take a census of Chinese and foreign residents living in Chinese territory including the occupants of houses off Municipal Roads. Each house-holder will be given a Census Form to fill in and the assistance of the Municipal Police as well as that of the Japanese Amalgamated Association of Street Unions will be asked in the matter. According to Col. Chen Hsi-tseng, the procedure to be followed in the taking of the census will be exactly similar to the measures adopted in 1928. In this connection please see attached file No. 9524.

It was pointed out to Col. Chen Hsi-tseng that officers attached to the Public Safety Bureau delivered Census Forms to residents of foreign houses in the out-lying roads of the Bubbling Well District in March 1931 and to foreign residents of the Dixwell Road Districts in April 1931 without the assistance of the Municipal Police. Col. Chen Hsi-tseng pointed out, however, that in the two last mentioned cases the officers were merely delivering forms in order to collect data necessary to bring old records up to date.

Sir,

According to an instruction from the Mayor of Greater Shanghai an agreement has been reached with the Consular Body that this Bureau may carry on the work of taking a census of foreign residents in the Municipality of Greater Shanghai and that the Police will assist us in censoring residents on Municipal Roads outside the Settlement. It is said to have been agreed that the Consular Body will notify all foreigners residing in our district to ~~submit~~ ^{with} submit to ^{the} census. In accordance with the above instruction we have decided to distribute census forms on September 24 and to collect them on the 29th.

Enclosed please find a census form for foreign residents in the Municipality of Greater Shanghai and three forms for Chinese residents.

Col Tai Tuh Fu interviewed at 10.20 am. This inst. He immediately issued instruction to all Chinese Police Station warning the Inspectors to refrain from taking census or collecting census papers from residents on Municipal roads until the matter has been settled between the Consular Body and Chinese Authorities.

Interviewed again in the afternoon he attached. Col Tai states he is anxious ^{to dispense} and will not object to Municipal Police taking census on Municipal roads (extension roads) on condition that only Chinese (his own) census papers are to be used and that the information thus collected will be taken direct by his men to the Chinese Police Headquarters who will duly forward duplicates to the S.M.P. If Municipal census forms are to be used, Col Tai states that the question is too important for him to decide & he will have to ask for instructions from Mayor Chong. Tan Shastiani. C.A.

Sir,

At 3.10 p.m. D.S.I. Grubb brought to the station Chapel Constable No.51 attached to 6 Division, Jessfield Police station, also Woo Kuh Ping, Yue Shuh Ziang and Moe Jeu Yah whom he arrested on Jessfield Road for illegally functioning by collecting census papers. Grubb saw them coming out of the compound of No.15 Jessfield Road which is occupied by Chinese and on questioning them as to what they were doing, the policemen said they were taking a census. He was questioned at the station as to whether or not he was aware the taking of the census was not allowed for the present, he declared he did not know there was anything against it. He was already working on the job for a couple of weeks. He was billeted at a Substation on the other side of the Soochow Creek, the men who were with him were voluntary hands who had come forth and offered their services when a meeting of the residents in the vicinity of Jessfield village was called, and volunteers asked for a couple of weeks back.

The A/D.C.P. was communicated with and gave instructions to deal with the policeman on similar lines to those brought in the previous day. This was done.

REPORT

Bubbling Well Station.

Date 18th Sept. 1928.

Subject (in full) Illegal functioning of Chinese authorities.

Made by

and

Forwarded by Inspector Foley.

Sir,

At 1.30 p.m. Mr. Snape residing at No. 94 Yu Yuen Road came to the station and reported that two Chapei policemen were proceeding along Yu Yuen Road calling at every house taking a census, he refused them admittance to his house. Inspector Foley and C.D.C. 54 Yuan Yao proceeded out at once in the station m/car and proceeded west along Yu Yuen Road and when nearing Edinburgh Road observed a Chapei policeman walking on the footpath on the south side of the road, he was in uniform but did not carry arms. He scrutinised the houses on his left as he passed them by, when within about fifty yards off Edinburgh Road, he retraced his steps and gave his attention to the houses on the north side of the road, when within about 150 yards west of the public school for girls, he crossed the road to the north side and entered a private road. At this point Inspr. Foley and the C.D.C. made their presence known to him, whereupon he started to undo one of his putties and assumed an air of indifference to our presence. He was asked what he was doing ~~about~~ on a Municipal Road and what had become of the other man who had been with him (See Mr. Snape's report), he simply waved his hand in the direction of a Chinese occupied house further up the road, remarking "he has gone in there, we are taking census but of Chinese only. The other man who was loaded up with papers, books, tin can etc, etc, (shown over *leaf*) (seized) came up and both were conveyed to the station in the station m/car where their names, rank and numbers were secured. The man referred to as scrutinising the houses on Yu Yuen Road is Zau S Ong, Sergeant No. 3, but minus stripes. The other man is Lee Ding Faung, both attached to the 6th Division, Zau Ka Deo. The Commissioner of Police was communicated with and gave instructions for all papers, books etc. seized to be detained pending some responsible person

calling for them, the two men brought in could be allowed to go, but warned against further action, this was done and both men left quite disgruntled, this being intensified by frequent ^{at} marks from the Sergeant to the effect that soon the Chinese would govern, all the roads were outside the Settlement, the houses were on Chinese territory, etc, etc. Later in the day the Inspector in charge of the 6th Division, Tsang Ih Wang together with his Sub-Inspector Soo Ding Kwan called and the papers, books, etc. were handed over to him. He stated he had instructions from the Municipality of Greater Shanghai to take a census of Chinese living on outside road. His men had been working on the job for about a couple of weeks and had already completed Robinson, Singapore and a portion of Jessfield Roads. He was told this is not allowed and nothing further must be done until the matter of taking the census is settled between the ^{at} Consul Body and the Chinese authorities. He promised to refrain from further action, adding he would go and report to his superiors what had occurred. At 6 p.m. last evening I had occasion to call on one Mr. C. Ma of 109 Yu Yuen Road (Manager of the Fong Lai Co. No. 1 Kiukiang Road) in connection with his application for a pistol licence for his bodyguards. In the course of conversation, he apparently having learned through his servants of what had occurred to the two Chapel policemen as the private road referred to is opposite his house, remarked that about a week or so ago a Chinese in mufti who stated he was employed in the Nationalist Government called in and left some census papers.

Here follows list of papers, books, etc. seized:-

3 Big census forms for shops

22 Small census forms for shops

153 census forms for dwelling houses

The Acting Secretary.

Census on Outside Roads.

Letter dated September 13 from the
Senior Consul to the Chairman of
the Council.

In the past a census has been taken by the Council every five years of Chinese and Foreign residents within the Settlement. The method adopted is for a form to be left at each house with a request that it be filled up on a certain date. In regard to Foreigners the particulars required include nationality, sex, age and occupation. The Chinese are asked to supply details as to the number of persons, distinguishing between adults, and children male and female, and their native province. The forms are distributed by the Council's officials i.e. Tax Collectors or members of the Police Force seconded for the purpose and are subsequently collected; the information given being afterwards tabulated in this office. The number of each house is written on the census form for convenience of distribution and collection.

It will be a comparatively easy matter to undertake a special census of foreigners on the outside roads as all the houses are properly numbered.

To obtain a correct census of Chinese in the outlying districts will not be so easy. In the first place the house enumeration, owing to the action of the Chinese Authorities, is in a hopeless muddle. In the ordinary way the Council's officials are not allowed to function on roads policed by Chapei and similarly Chapei police cannot function on Council roads.

I would suggest that the census of Chinese be undertaken by the Settlement Police and that the Chinese Police be instructed not to interfere but to co-operate. *Passing the 'buck'!*

Owing to the confusion of house numbers and the difficulty of differentiating between properties which come under the two administrations it may be impracticable to follow the usual procedure and the particulars required might best be obtained by a house to house visitation extending say over a period of a week. In any case I consider the special census as far as the Chinese ^{part} concerned should be undertaken by the Police rather than by this office.

I would further suggest that the Chinese Authorities be asked to defray any expense incurred by the Council in connection with the taking of the special census.

Attached are copies of the forms used when the last official census was taken.

While on the subject of census taking it may be recalled that in the year 1910 the Chinese officials attempted to establish a census office for certain reasons of their own; but the project was firmly turned down by the Council and the Consular Body. See correspondence on pages 227/8 of the Annual Report for that year.

Chairman, Shanghai Municipal Council,
Shanghai, China.

Sir:

I have the honor to refer to your communication of September 10, and to inform you that at a meeting of the Consular Body it was decided that all foreigners concerned residing in Chinese territory in the Greater Municipality of Shanghai, but not on Municipal roads, should be informed that there is no objection on the part of their Consular Authorities to their furnishing, when requested by the Chinese census enumerator, information as to nationality, age, sex, occupation, place of residence and total number of persons residing in the premises. The Consular Authorities would also have no objection to their nationals residing on Municipal roads furnishing like information to the Municipal Authorities of the International Settlement when called upon to do so for the purpose of the census required by the Chinese Authorities.

I am given to understand that you will initiate negotiations with the Chinese police with a view to having them co-operate with the Shanghai Municipal Police in the taking of a census of residents, whether foreign or Chinese, on Municipal roads, but on the premise that the Shanghai Municipal Police will be the active agents in this undertaking.

2.

On receipt, therefore, of confirmation from you that such an arrangement has been consummated I am authorized to publish in the press a notice in the sense expressed in the first paragraph of this letter.

Dear Mr. Chen,

Further to our interview of yesterday morning and my letter of September 6, I have since been in touch with the Consular Body and certain serious difficulties have arisen which make it impossible for the census on Municipal Roads to be undertaken until such time as an application for permission therefor has been made to the Consular Body. I understand that a meeting of the Consular Body will take place on Tuesday September 11, and in the meantime I have to request that no attempt will be made to proceed with this census on Municipal Roads until the matter has been dealt with officially by the Consular Body.

Census by Chinese Authorities.

On September 5 I was approached by Chinese officials with the request that Police assistance be rendered to the Chinese Census officials who proposed to take a census of all persons residing out of limits on Municipal Roads. After consultation with the British Consul, who informed me that certain members of the Consular Body had agreed to this co-operation and after placing the matter before the Chairman of the Council, I informed the Chinese Authorities that the necessary co-operation would be forthcoming. Later the British Consul informed me that there were certain objections to the proposed census form prepared by the Chinese and the Consul-General for the Netherlands interviewed me personally and lodged a protest against the whole proceeding, which he immediately took up with the Senior Consul. It is now pointed out that the method of procedure by the Chinese officials in regard to this census has been throughout irregular and that no permission should be given to any Chinese official to census Municipal Roads until a proper application has been made by them to the Consular Body.

I forward herewith a sample of the form to be filled in and it will be noticed that the name and address of the Landlord is included in the information required. Further, the sub-heading of the form reads "Census of Foreign Residents in the Municipality of Greater Shanghai." The former should be omitted and the latter

requires alteration. I suggest that this matter be immediately taken up with the Consular Body and in the meantime the Chinese officials have been informed that nothing can be done to assist them until the matter has been decided by that Body.

T. T. Chen, Esq.,

Secretary,

Municipality of Greater Shanghai.

Dear Sir,

In reply to your letter of September 4 informing me that a census of the population within the Municipality of Greater Shanghai is about to be undertaken and requesting the assistance of the Shanghai Municipal Police, I have to inform you that I shall have much pleasure in giving instructions for such assistance to be rendered on Municipal Roads beyond Settlement limits. In order to avoid misunderstanding, I suggest that in all cases where this census is being taken on Municipal Roads, your officials be accompanied by a member of the Shanghai Municipal Police detailed for this purpose. I shall be glad to arrange any further details with you at your convenience.

Yours faithfully,

(Sd) E. M. Barrett

Commissioner of Police.

Colonel Tai,
Chief of City Police.

Sir,

I have to acknowledge receipt of your letter handed to me to-day by Mr. T. T. Chen and to inform you that the necessary assistance you require will be rendered by the Municipal Police in connection with the census to be taken outside Settlement limits. It will be necessary for your officials operating on Municipal Roads outside the International Settlement to be accompanied by a member of the Shanghai Municipal Police who will be detailed for this purpose. As I understand the Consular authorities are prepared to assist you in this work, I have no doubt they will notify their own nationals either through the press or by some other means to accord you the necessary assistance.

I have the honour to be,

Sir,

Your obedient Servant,

(Sd) E.L.M. Barrett.

Commissioner of Police.

Sept. 4, 1928,

Capt. E. I. M. Barrett, C.I.E.
Commissioner of Police,
Shanghai Municipal Council,
Shanghai.

Dear Sir,

In accordance with the National Government's order of censusing the population within a limited period of three months, I am directed to inform you that the Department of Police of the Municipality is instructed by the Mayor to take census of the population within the area under the jurisdiction of the Municipality of Greater Shanghai and I am directed to ask you good enough to give us necessary facilities during our operations along the Municipal Roads (S.M.R.) beyond the Settlement Limit and along the boundary lines from and on Sept. 9th, 1928. All the census papers are expected to be collected on September 16, 1928. Anything you will kindly do for this matter will be appreciated. Enclosed you will please find a letter from Colonel G.F. Tai, Commissioner of Police, who ask me to forward to you.

Including Foreigners -

Yours faithfully,

J. J. Chen

Secretary.

(C.I.D.) Office Notes

Translation of despatch letter from the Shanghai Public Safety Bureau. to the Commissioner of Police, S.M.C.

Repeated instructions being received from the Nationalist Government and the Shanghai Municipal Government (Chinese) to complete the census of the whole Municipality. This also applies to any foreign residents living within the area for the purpose of record and protection. Whereas many districts under the jurisdiction of this Bureau are in conjunction with the Settlement, we request you will notify the Boundary Police Stations concerned to give us the necessary assistance. And also that you will inform these foreigners when our census staff call on them, they should accept and not to resist so not to spoil the spirit of census and good friendship. On the 9th instant, the date is affixed for the distribution of the census forms, and on the 16th instant the date of collection. At the same time, any personal changes occurred in any house should be reported and registered. On the completion of the census, we prepare to check over with the registration in your department. We have invited the Consular bodies and consulted the matter with them and asked for their assistance verbally. Enclose herewith a census form.

Extract from Intelligence Report
Dated September 3, 1928

The Shanghai Public Safety Bureau started taking a census of the residents of Shanghai in the Chinese controlled territory on September 2, 1928.

Extract from Intelligence Report
dated September 2, 1928.

General Chang Ting Fan, Mayor of Greater Shanghai, will entertain members of the Consular Body at the Chinese Naval Club, Bubbling Well Road at 12 noon September 4 with the object of asking for their support in the taking of a census of foreign residents in Chinese territory.

REPORT ON Chapei Police Functioning on Municipal Roads.

Made by D.S.I. Wardrop

Forwarded by

Jeff Macintosh

Sir,

At 4.45 p.m. 2.9.28, at North Szechuen and Parroch Roads, P.S. 29 Evans, found three Chapei Police in uniform, Nos. 106, 144, 157, who were in possession of a quantity of posters, also other literature which they were apparently distributing.

On being brought to the station, it was found that they were engaged distributing census papers to Chinese residents along the Municipal Roads.

The three Policemen were taken to the 5th District Police Headquarters, No. 325 Poashan Road, where it was explained to the Inspector Lung Yui Kwa (陳佑華) that as the Policemen were in uniform and functioning along Municipal Roads, permission should first have been obtained, and an escort would have been provided.

213
The Inspector stated that he would communicate with his Headquarters before proceeding further with the census along Municipal Roads.

Houses occupied by Chinese were being visited, only the numbers of houses occupied by Foreigners being noted on the census papers.

August 31, 1928.

Census of Residents within the Jurisdiction
of the Municipality of Greater Shanghai.

General Chang Ting-fan has received instructions from the Nanking Government to take a census of residents in his area. General Chang has entrusted the Shanghai Public Safety Bureau with this task, the carrying out of which will entail the temporary engagement of some 7,000 persons. It is intended to send out census papers to all residents on September 2 and 3 and collect them on Sept. 15.

Col. Tai, through Mr. T.T.Chen, requests the co-operation of the Municipal Police in the matter, especially in regard to the Northern district where at points it will be necessary for census takers with their accompanying police escort to use the Municipal road. As these escorts will be in uniform, it is perhaps inadvisable to permit them on our roads, but the difficulty could be overcome by providing a Municipal Police escort where necessary.

The Nanking Government intends taking a census of the entire country, starting with Kiangsu and Chekiang Provinces. The work so far as these two provinces are concerned must, according to Nanking's order be completed within three months.

Information. Mr. J. T. Chen has been advised that it will be better for all concerned to make in order for him or the

Shanghai Greater Municipality
to write in officially to the
Council stating exactly what
their intentions & requirements
are in connection with the
Census taking. In receipt
of this communication the
Council will know exactly
what the position is & be
able to pass orders accordingly.
Verbal requests etc in such
an important matter
cannot be entertained.

Quite correct - and without
the knowledge ^{and consent} of the Council they
will not be allowed to operate
on our roads.
